

# What's it like to work at Neptune Software?

Join the #NeptuneCrew, a group of hardworking, fun and passionate people from +25 different nationalities, working together to help companies transform the way they do business.

## Career opportunities

At Neptune Software we focus on our employees' wellbeing and career growth. We want them to become the best version of themselves! That's why we embrace remote teamwork, great compensation & benefits, we provide an individual training and development program, we support their ideas, and provide them with all they need to be great at their work.

## Unique Company Culture

We pride ourselves on working hard and playing harder! We love having frequent team-building activities to maintain strong bonds among our teams and stay motivated. Once a year we also celebrate our Annual Kick-Off event, where all our employees travel to a special location to share their plans for the year ahead and spend some quality time together.

## Passion for innovation

We are a rapid application development platform vendor with + 600 enterprise customers and + 3 million licensed end users globally. We are true disruptors in the enterprise app market and our tech team is always working on new versions of our product, the Neptune DXP. We all work together to empower IT teams and deliver the best solution to our customers and partners across the world.
